

UAT Report – ServiceNow Incident Client Script & UI Policy

Project: Implement Client Script & UI Policy (Incident) for NM Project

Date: 03 October 2026

Team ID: NM-TEAM-ID

UAT Objective

Validate state-based UI Policies, priority calculation, submission validation, usability and regression behavior on the ServiceNow Incident form.

Test Case	Scenario	Expected Result	Status
TC-001	Impact/Urgency priority	Priority updates correctly	Pending
TC-002	State = Resolved	Resolution fields become mandatory	Pending
TC-003	Invalid Resolved submit	Submission blocked with message	Pending
TC-004	Valid Resolved submit	Submission succeeds	Pending
TC-005	State = On Hold	On Hold Reason becomes mandatory	Pending
TC-006	Regression	Normal incident creation remains usable	Pending
