

ServiceNow Configuration Verification

Implement Client Script & UI Policy (Incident) for NM Project
Date: 03 October 2026 | Team ID: NM-TEAM-ID

Scope

This file is repurposed from the Salesforce template because the NM project uses ServiceNow, not Salesforce.

Verification

Confirm Client Scripts are active and attached to Incident table.

Confirm UI Policies are active and attached to Incident table.

Confirm scripts run only on intended form events.

Confirm no duplicate policy/script causes conflicting field behavior.

Confirm Update Set captures all configuration records.
